IT Consulting

## Contact Person

**Jim Crawford,**  
Data Center Manager

## Problem

The company was looking for a simple and cost-effective solution that would ensure high availability and improve overall SAN performance.

## Solution

StarWind Virtual SAN enhanced the overall SAN performance and ensured high availability for the company's cloud services.

## Problem

Prior to deployment of **StarWind Virtual SAN**, **Cantey Tech Consulting** infrastructure comprised single target SANs with VMware ESX as hypervisor. The company was looking for a simple and cost-effective solution that would ensure high availability and improve overall SAN performance.

## Solution

**Cantey Tech Consulting** chose **StarWind Virtual SAN** as a solution because of its superior performance, ease of management and the value it brings to businesses. **StarWind Virtual SAN** enhanced the overall SAN performance and ensured high availability for the company's cloud services.

The company also admits great support service which made its experience with **StarWind** even better.

StarWind has been an outstanding solution that drastically increased our cloud availability and improved disk I/O
